

EMS, LLC Computer Requirements: Pre-existing Computers

Required Software

Operating System:

- Windows 2000 or
- Windows XP or most current version
 - Note: Windows 95 or Windows 98 will not be accepted as they are no longer supported by Microsoft.

Other Software:

- Microsoft Office Professional 2000 or
- Microsoft Office Professional XP or
- Microsoft Office Professional 2003 or most current version
 - Note: If you already have Microsoft Office, but do not have Microsoft Access, then Microsoft Access must be purchased and installed.
- File Compression Software such as WinZip or 7-Zip is required unless using Windows XP which includes file compressing software.

Security:

- F-Secure Antivirus Client Security 5.50 or most current version
- Pest Patrol (most current version)

Note: If you have any other type of virus scanning software or firewall, it must be uninstalled and the software listed above must be installed and configured.

The above listed security products may be purchased from:
